

Yerevan, Armenia

(music, talking)

HEFFERN: Greetings from embassy Yerevan! I'm John Heffern, I'm the US Ambassador here and we're all here to celebrate International Day of the Disabled. My wife Libby and I are with a number of great Armenian artists, artists here with special needs, who have helped decorate our ambassador's residence here in Yerevan. And I wanted to congratulate them and thank them for their creativity and their talent and for bringing so much color and life to our living room, so congratulations to them and congratulations to all on International Day of the Disabled.
